ADMINISTRATION

MEMORANDUM

TO: Bruce K. Walden, Chief Administrative Officer
FROM: William R. Gray, P. E., Public Works Director
DATE: July 19, 2002
RE: **IDOT Resolution to Establish Signage on I-74**

INTRODUCTION

After the April 19, 1996 tornado that struck Urbana, we received a FEMA grant to cover our emergency response and cleanup costs. We also received funding to upgrade our entire emergency warning (sirens) system which included the installation of a local AM radio station that could be used to broadcast emergency and non-emergency messages with coverage throughout Urbana and most of Champaign (ten-mile radius coverage). This station currently broadcasts NOAA weather reports. In an effort to expand this radio station's capabilities during non-emergency events, staff believes it is desirable to broadcast community/tourism information.

The Illinois Department of Transportation will install, on eastbound and westbound I-74, signs informing motorists to tune to AM 530 for local weather and community/tourism information. The Illinois Department of Transportation requires, prior to installation, two resolutions: one that indicates tourism information and the other indicates emergency broadcast information, both on AM 530.

The Urbana Business Association is very supportive of this effort as it is in keeping with its mission to promote Urbana.

RECOMMENDATION

It is recommended that the attached two resolutions be approved.
