SUBJECT: **A Resolution Authorizing the Mayor to Execute a Certification of Consistency for the Housing Authority of Champaign County Five –Year Plan FY 2005-2009 and the Annual Plan Fiscal Year 2005**

Description

The Housing Authority of Champaign County (HACC) has indicated that in order to submit their 2005 Annual Plan, a Certification of Consistency must be executed by the City of Urbana, indicating that the Plan is consistent with the City of Urbana and Urbana HOME Consortium Consolidated Plan.

The HACC has indicated that the public comment period on the Draft Plan ends December 15, 2004. They have requested that the City of Urbana provide the Certification shortly after this comment period has ended.

Issues

The principal issue is to determine that the Housing Authority of Champaign County's (HACC) FY 2005 Annual Plan is consistent with the City of Urbana and Urbana HOME Consortium Consolidated Plan and to adopt a resolution authorizing the mayor to execute the Certification of the Public Housing Agency (PHA) Plan's Consistency with the Consolidated Plan.

Background

The request for the Certification of Consistency is an annual request from the Housing Authority of Champaign County.

This year's consideration of the Certification of Consistency is of particular interest, since the Housing Authority of Champaign County, along with City of Urbana staff, developed a Redevelopment Plan for Lakeside Terrace

The City of Urbana supports the efforts of the HACC in its mission to provide safe, decent and sanitary housing for all. The Urbana Consolidated Plan (Summary of Recommendations) includes the following policies and statements that were included in the HACC Annual Plan for FY 2004 and should remain in the HACC Annual Plan for FY 2005:

AFFORDABLE HOUSING; in part “Additional subsidies for extremely low-income and very low-income tenants are needed, such as tenant-based rent assistance, assistance with security deposits and first month’s rents, and use of low-income housing tax credits”.

PUBLIC HOUSING; in part “Subsidized housing is greatly needed throughout Champaign County. However, family units owned and managed by the Housing Authority of Champaign County are generally considered last-resort housing due to poor living conditions. In the short-term family complexes should be renovated to ensure safe living conditions.

If redevelopment of Lakeside Terrace and Dunbar Court is possible without a significant reduction in the total number of permanent, subsidized housing units that are affordable to the lowest income families with children in the community, the City of Urbana will work with the Housing Authority of Champaign County to develop a HOPE VI application for the redevelopment of Lakeside Terrace and Dunbar Court to create a mixture of public housing, rental or homeownership units and residents representing a mix of income. The city will assist in developing a plan which partners with the private sector to use private dollars to leverage HOPE VI or other Federal funds to replace the demolished units with a combination of new on-site units, scattered-site units and Section 8 rent subsidies.

Although Section 8 vouchers or certificates may be used to relocate households living at these complexes at the time of redevelopment, at least 80% of demolished units will be replaced with permanent, subsidized housing units that will be affordable to extremely low-income families with children, irrespective of their income.

The City of Urbana submits the following additional comments and provisions related to the redevelopment of Lakeside Terrace:

With regard to replacement units related to the redevelopment of Lakeside Terrace in Urbana, in order to maintain consistency with the City of Urbana’s Consolidated Plan, the HACC recognizes the need to maximize the number of units that will be made available for families below 30% MFI. Should the City of Urbana provide substantial funding toward the redevelopment of Lakeside Terrace, the HACC will provide for the maximum number of units for families at or below 30% MFI within the expanded redevelopment area and that those units not provided on-site could be provided at

scattered-sites, so that no fewer than 80% of demolished units are replaced with permanent, subsidized housing units that will be affordable to extremely low-income families with children. 

With regard to the predevelopment planning efforts for Lakeside Terrace, City of Urbana staff has been actively involved in the process and has provided guidance and direction throughout the planning process. Should the City of Urbana provide substantial funding toward the redevelopment of Lakeside Terrace, the HACC will adopt the following goal: The maximum number of affordable housing units are to be developed within the Lakeside Terrace redevelopment area and additional housing can be developed off-site in scattered-site developments for persons below 30% MFI, so that no fewer than 80% of demolished units are replaced with permanent, subsidized housing units that will be affordable to extremely low-income families with children, irrespective of their income, which is consistent with the Consolidated Plan. 

The City of Urbana will not provide substantial funding for the demolition of Lakeside Terrace units without a viable redevelopment plan, which is consistent with the provisions of the Consolidated Plan for the replacement of these units.

The above information is included in the 2005 Plan on page 57. 

Additional Comments

In the course of reviewing the 2005 Annual Plan, staff noted the following information and data referenced in the Plan.

Page 2

Item c. mentions that some new Lakeside Terrace units will remain as “public housing”. Staff understands that no new Lakeside Terrace units will be public housing, but that all new units will be owned and operated by a private developer.

Staff has discussed this terminology with the Housing Authority staff. They have indicated that this sentence will be changed to read as follows: *Some units will continue to serve the same populations as public housing units, while others will be required to be rented to persons at 30%-40% of the Area Median Income.*

Page 7

The Housing Needs table uses the most current data from HUD’s Comprehensive Housing Affordability Strategy (CHAS) dataset. This is the same data that the City of Urbana and the Urbana HOME Consortium use to prepare their Consolidated Plans. This data is more current

than the HACC 2004 Plan.

Page 15

The Plan notes that the HACC will use a different method to address eligibility. The 2004 Plan noted that applications would be processed and verified upon submission. The 2005 Plan seems to indicate that applications will be processed as the client reaches a certain point on the wait list. This section also notes that the HACC will access FBI records for screening. The 2004 Plan did not indicate this.

The Housing Authority staff has indicated that income eligibility is current only for 3 months. This new method should decrease the number of times a client must perform the income eligibility process.

Page 35

This section on Demolition and Disposition outlines the biggest changes between the 2005 and 2004 Plan. The 2005 Plan indicates that the HACC intends to pursue the demolition of the Dorsey Homes, Dunbar Court and Columbia Place.

At the November 30, 2004 Community Development Commission, the Housing Authority staff indicated that they would not pursue the demolition of any public housing structures without a plan in place to redevelop the property and create a net gain in affordable housing units. The Housing Authority staff also noted that future redevelopment plans would be similar to those developed for Burch Village and Lakeside Terrace. Staff noted that this redevelopment framework provided for additional vouchers and new units.

Attached is a copy of a December 1, 2004 letter from the Housing Authority indicating that the following language would be inserted into the Five Year Plan:

Any demolition or redevelopment activities will follow similar processes designed for the Burch Village and Lakeside Terrace redevelopment projects. The goal of the Housing Authority of Champaign County will be to achieve a net increase in affordable housing for families with income below 50% of the area median income.

The Housing Authority staff also noted that plans for the demolition of these properties are not eminent. Rather, demolition is noted in the Annual Plan to position the HACC to take advantage of future funding opportunities. Without the demolition/redevelopment of the properties being noted in the Annual Plan, the HACC would not be able to pursue future funding opportunities.

Page 37

This section on Designating Public Housing for the Elderly also includes significant changes. Washington Square, Columbia Place, Youman Place, and Steer Place have all been included as

facilities to be designated for occupancy only by the elderly.

At the November 30, 2004 Community Development Commission meeting, the Housing Authority staff indicated that in practice the apartment complexes noted above have been serving an elderly population and that this designation is more of a “housekeeping” matter for the HACC.

Housing Authority staff indicated that no current residents would be impacted by the designation.

The Housing Authority staff also provided the following perspectives:

The elderly designation provides that persons 50 years of age and older can reside in these units.

Elderly persons prefer living arrangements with their peers, rather than a mixed tenancy arrangement.

The HACC has 596 elderly tenants. 320 reside in four properties to be designated as elderly.

A recent trend in some elderly units is to add assisted living components on designated floors, which can allow persons to “age in place”.

The properties are all in good conditions with no major problems.

Fiscal Impacts

No immediate fiscal impact has been identified, as no city funds are committed to strategies outlined in the FY 2005 Annual Agency Plan.

HOME and CDBG funding is designated in the Lakeside Terrace Redevelopment Plan.

Recommendations

At their November 20, 2004 meeting, the Community Development Commission approved the following motion:

To recommend approval to the Urbana City Council a resolution authorizing the Mayor to execute a Certification of Consistency for the Housing Authority of Champaign County Five-Year Plan FY 2005-2009 and Annual Agency Plan FY 2005. Approval is pending a statement from the Housing Authority concerning demolition and replacement of units at Dorsey Homes,

Dunbar Court, and Columbia Place that is consistent with the Redevelopment Plan for Lakeside Terrace.

The Housing Authority of Champaign County has evidenced in the attached letter that such a provision will be included in their Annual Agency Plan FY 2005.

Community Development staff recommends that the Urbana City Council approve the Resolution Authorizing the Mayor to Execute a Certification of Consistency for the Housing Authority of Champaign County Five –Year Plan FY 2005-2009 and the Annual Plan Fiscal Year 2005.

ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The Housing Authority of Champaign County continues to make adjustments in response to the ever-changing housing industry. The HACC is embarking on some exciting times that require substantial changes in the way the HACC does business. Some of the more significant changes are as follow:

- a.) The HACC has completed the development of its Section 8 Homeownership program and have several banks and lending institutions that have entered into agreements with the HACC setting forth the banks commitment and underwriting criteria.
- b.) The HACC is making major adjustment in the way it provides ongoing day-to-day maintenance. Prior to FY2003 the HACC assigned work type to each employee and they would provide services to all sites. While there will remain some of the more specialized work being provided by specific maintenance personnel others will be assigned to specific sites. This change have been implemented for the following reasons:
 1. To cut down on travel time. By placing personnel on a specific site the need for travel will be greatly reduced.
 2. To create a sense of ownership and pride in how the sites are maintained. Assignment of maintenance personnel to specific sites help in the overall appearance and function ability of each site.

3. The assignment of specific personnel to each site have helped the staff to become more acquainted with the residents allowing the residents the opportunity to get to know the HACC staff that is directly responsible for their home.
-
- c.) The HACC is in the final phases of planning and predevelopment for the redevelopment of Burch Village and Lakeside Terrace. The two family sites will undergo redevelopment that will include the total demolition of the existing buildings and the development of new housing units that will be financed under HUD's Mixed-Finance approach. The Mixed-Finance approach will include the use of several funding sources, of which many require that families with a variety of incomes occupy units. Some units will remain as public housing units while others will be required to be rented to persons at 50% to 80% of the area medium income. With regard to replacement units in conjunction with Lakeside Terrace in Urbana and to maintain consistency with the City of Urbana's Consolidated Plan the HACC recognizes the need to maximize the number of units that will be made available for families below 30% MFI. The HACC will provide for the maximum number of units for families at or below 30% MFI within the expanded redevelopment area.
 - d.) The HACC is currently in the process of reviewing its Admissions and Continued Occupancy Policy (ACOP), the Resident Handbook and the Resident Lease to make sure all three documents are consistent with the other. In addition, a complete review and evaluation is being conducted to determine if the governing documents meet the current needs of the residents and the HACC. Once complete HACC will hold public hearings for the purpose of receiving comments on the proposed changes to the above referenced documents.

C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

(1) Strategies

Need: Shortage of affordable housing for all eligible populations

Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line. *The HACC has an implemented policy whereas maintenance personnel are assigned to each property. This process results in higher quality services causing each site to improve in curb appeal, therefore, being more attractive to persons seeking housing.*
- Reduce turnover time for vacated public housing units. *The HACC believes by placing specific maintenance personnel on site that the frequency and decrease in travel to and from the site will allow the HACC to reduce turnover time.*
- Reduce time to renovate public housing units.
- Seek replacement of public housing units lost to the inventory through mixed finance development. *The HACC is currently in the process of seeking HUD approval to conduct Mixed-Income/Mixed-Finance redevelopment, which will assist in the replacement of public housing units, lost to demolition.*
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required. *By increasing the FMR the opportunity of rental units to higher rent districts will expand.*
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration. *The HACC has implemented processes that will help to educate landlords about the Section 8 program and Fair Housing provisions applicable to rental housing.*

- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

Strategy 2: Increase the number of affordable housing units by:

Select all that apply

- Apply for additional Section 8 units should they become available
- Leverage affordable housing resources in the community through the creation of mixed - finance housing. *The HACC has successfully negotiated a contract with a developer partner for the redevelopment of two of its largest family developments, Burch Village (IL6-02) and Lakeside Terrace (IL6-04).*
- Pursue housing resources other than public housing or Section 8 tenant-based assistance. *The redevelopment of the two family sites will require the HACC to seek non-public housing funds such as; CDBG, HOME, Low-Income Housing Tax Credits, Tax Exempt Bonds, State of Illinois Trust Funds, State Donations Tax Credits etc.*
- Other: (list below)

Need: Specific Family Types: Families at or below 30% of median

Strategy 1: Target available assistance to families at or below 30 % of AMI

Select all that apply

- Exceed HUD federal targeting requirements for families at or below 30% of AMI in public housing
- Exceed HUD federal targeting requirements for families at or below 30% of AMI in tenant-based section 8 assistance
- Employ admissions preferences aimed at families with economic hardships
- Adopt rent policies to support and encourage work
- Other: (list below)

Need: Specific Family Types: Families at or below 50% of median

Strategy 1: Target available assistance to families at or below 50% of AMI

Select all that apply

- Employ admissions preferences aimed at families who are working
- Adopt rent policies to support and encourage work
- Other: (list below)

Need: Specific Family Types: The Elderly

Strategy 1: Target available assistance to the elderly:

Select all that apply

- Seek designation of public housing for the elderly
- Apply for special-purpose vouchers targeted to the elderly, should they become available
- Other: (list below)

Need: Specific Family Types: Families with Disabilities

Strategy 1: Target available assistance to Families with Disabilities:

Select all that apply

- Seek designation of public housing for families with disabilities
- Carry out the modifications needed in public housing based on the section 504 Needs Assessment for Public Housing
- Apply for special-purpose vouchers targeted to families with disabilities, should they become available. *The HACC is committed to making available units for persons with disabilities and will make application for additional housing options as they become available and the HACC is eligible.*
- Affirmatively market to local non-profit agencies that assist families with disabilities
- Other: (list below)
The Lakeside Terrace replacement units will be designed in a manner consistent with the City of Urbana Ordinance 2000-09-105, which provides for the design of visitability features in new construction of one-and-two family dwellings, which are funded with financial assistance originating from or flowing through the City of Urbana. The HACC will develop units that are accessible to persons with disabilities commensurate with anticipated demand. Also, the HACC, through its efforts in the redevelopment of Burch Village and Lakeside Terrace will meet the Federal Requirement of 5% of all units to the needs of persons with disabilities including 2% for hearing impaired and 2% for visually impaired. In addition, all ground floor units shall meet the State of Illinois laws and local ordinances relating to visitability.

Need: Specific Family Types: Races or ethnicities with disproportionate housing needs

Strategy 1: Increase awareness of PHA resources among families of races and ethnicities with disproportionate needs:

Select if applicable

- Affirmatively market to races/ethnicities shown to have disproportionate housing needs
- Other: (list below)

Strategy 2: Conduct activities to affirmatively further fair housing

Select all that apply

- Counsel section 8 tenants as to location of units outside of areas of poverty or minority concentration and assist them to locate those units
- Market the section 8 program to owners outside of areas of poverty /minority concentrations
- Other: (list below)
The HACC has implemented processes that will help to educate landlords about the Section 8 program and Fair Housing provisions applicable to rental housing.

Other Housing Needs & Strategies: (list needs and strategies below)

(2) Reasons for Selecting Strategies

Of the factors listed below, select all that influenced the PHA's selection of the strategies it will pursue:

- Funding constraints. *Due to the ever changing federal budgets and the HACC's current lease-up rates in both public housing and Section 8 funding is becoming much tighter. Therefore, the developments of strategies are affected by the funds currently received by the HACC.*
- Staffing constraints. *Through attrition the HACC has seen a substantial reduction of its overall staff. The HACC, due to budget constraints, will not be filling these positions creating a heavier workload on the remaining staff.*
- Limited availability of sites for assisted housing
- Extent to which particular housing needs are met by other organizations in the community. *There have been a number of housing units recently built for seniors effecting the lease-up rates at the HACC Senior housing high-rises.*
- Evidence of housing needs as demonstrated in the Consolidated Plan and other information available to the PHA
- Influence of the housing market on PHA programs. *The HACC properties are impacted based on the construction of new housing units throughout the area.*
- Community priorities regarding housing assistance
- Results of consultation with local or state government
- Results of consultation with residents and the Resident Advisory Board
- Results of consultation with advocacy groups
- Other: (list below)

B. Reserved for Conversions pursuant to Section 22 of the U.S. Housing Act of 1937

24 CFR Part 972.200, Required Initial Assessments:

In October 2004, the HACC assessed the family public housing developments located in Champaign County (excluding Burch Village and Lakeside Terrace due to approved demolition plans):

*Dorsey Family Homes (IL06-01), Champaign, Illinois
 Dunbar Court (IL06-05), Urbana, Illinois
 Scattered Sites (IL06-09), Champaign, Illinois*

These sites were assessed as to the cost benefit of continuing to provide these units at public housing compared to issuing section 8 tenant-based assistance (vouchers) to the existing residents. The following items were considered: (1) Each development's operation was reviewed, and; (2) Consideration of the implications of converting the public housing to tenant-based assistance. It was concluded that, at this time, conversion of the family public housing units located at Dorsey Family Homes and Dunbar Court would be appropriate because of removal of the developments would meet the necessary conditions for voluntary conversion for the following reasons:

- (1) It would principally benefit the residents of the public housing developments to be converted.*
- (2) It would, at this time, not adversely affect the availability of affordable housing in the community.*

C. Reserved for Conversions pursuant to Section 33 of the U.S. Housing Act of 1937

The following represents the comments included in the FY 2004 Annual Plan inserted by the City of Urbana:

“The City of Urbana supports the efforts of the HACC in its mission to provide safe, decent and sanitary housing for all. The Urbana FY2000-2004 Consolidated

DRAFT
11-15-04

Plan (Summary of Recommendations) includes the following policies and statements that should be inserted into the HACC Annual Plan for FY 2004:

AFFORDABLE HOUSING; in part “Additional subsidies for extremely low-income and very low-income tenants are needed, such as tenant-based rent assistance, assistance with security deposits and first month’s rents, and use of low-income housing tax credits”.

PUBLIC HOUSING; in part “Subsidized housing is greatly needed throughout Champaign County. However, family units owned and managed by the Housing Authority of Champaign County are generally considered last-resort housing due to poor living conditions. In the short-term family complexes should be renovated to ensure safe living conditions.

If redevelopment of Lakeside Terrace and Dunbar Court is possible, without a significant reduction in the total number of permanent, subsidized housing units that are affordable to the lowest income families with children in the community, the City of Urbana will work with the Housing Authority of Champaign County to develop a HOPE VI application for the redevelopment of Lakeside Terrace and Dunbar Court to create a mixture of public housing, rental or homeownership units and residents representing a mix of income. The city will assist in developing a plan which partners with the private sector to use private dollars to leverage HOPE VI or other Federal funds, to replace the demolished units with a combination of new on-site units, scattered-site units and Section 8 rent subsidies. Although Section 8 vouchers or certificates may be used to relocate households living at these complexes at the time of redevelopment, at least 80% of demolished units will be replaced with permanent, subsidized housing units that will be affordable to extremely low-income families with children, irrespective of their income.”

The City of Urbana submits the following additional comments and provisions related to the redevelopment of Lakeside Terrace:

With regard to replacement units related to the redevelopment of Lakeside Terrace in Urbana, in order to maintain consistency with the City of Urbana’s Consolidated Plan, the HACC recognizes the need to maximize the number of units that will be made available for families below 30% MFI. Should the City of Urbana provide funding toward the redevelopment of Lakeside Terrace, the HACC will provide for the maximum number of units for families at or below 30% MFI within the expanded redevelopment area and that those units not provided on site could be provided at scattered-sites, so that no fewer than 80% of demolished units are replaced with permanent, subsidized housing units that will be affordable to extremely low-income families with children.

With regard to the predevelopment planning efforts for Lakeside Terrace, City of Urbana staff, have been actively involved in the process and have provided guidance and direction throughout the planning process.

Should the City of Urbana provide funding toward the redevelopment of Lakeside Terrace, the HACC will adopt the following goal: The maximum number of affordable housing units are to be developed within the Lakeside Terrace redevelopment area and additional housing can be developed off-site in scattered site developments for persons below 30% MFI, so that no fewer than 80% of demolished units are replaced with permanent, subsidized housing units that will be affordable to extremely low-income families with children, irrespective of their income, which is consistent with the Consolidated Plan.

The City of Urbana will not provide funding for the demolition of Lakeside Terrace units without a viable redevelopment plan, which is consistent with the provisions of the Consolidated Plan for the replacement of these units.

ADMISSIONS POLICY FOR DECONCENTRATION

A. DECONCENTRATION OF POVERTY AND INCOME-MIXING

The PHA's admission policy is designed to provide for deconcentration of poverty and income-mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects.

Gross annual income is used for income limits at admission and for income-mixing purposes.

Skipping of a family on the waiting list specifically to reach another family with a lower or higher income is not to be considered an adverse action to the family. Such skipping will be uniformly applied until the target threshold is met.

The PHA will gather data and analyze, at least annually, the tenant characteristics of its public housing stock, including information regarding tenant incomes, to assist in the PHA's deconcentration efforts.

The PHA will use the gathered tenant incomes information in its assessment of its public housing developments to determine the appropriate designation to be assigned to the project for the purpose of assisting the PHA in its deconcentration goals.

If the PHA's annual review of tenant incomes indicates that there has been a change in the tenant income characteristics of a particular project, the PHA will evaluate the changes to determine whether, based on the PHA methodology of choice, the project needs to be redesignated as a higher or lower income project.

Deconcentration and Income-Mixing Goals

The PHA's deconcentration and income-mixing goal, in conjunction with the requirement to target at least 40 percent of new admissions to public housing in each fiscal year to "extremely low-income families", will be to admit higher income families to lower income developments, and lower income families to higher income developments.

Deconcentration applies to transfer families as well as applicant families.

If a unit becomes available at a lower income development, and there is no higher income family on the waiting list or no higher income family accepts the offer, then the unit will be offered to the next family regardless of income.

If a unit becomes available at a higher income development, and there is no lower income family on the waiting list or no lower income family accepts the offer, then the unit will be offered to the next family regardless of income.

Project Designation Methodology

The PHA will determine and compare tenant incomes at all general developments.

Upon analyzing its findings the PHA will apply the policies, measures and incentives listed in this Chapter to bring higher income families into lower income developments and lower income families into higher income developments.

The PHA's goal is to have eligible families having higher incomes occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and eligible families having lower incomes occupy dwelling units in projects predominantly occupied by eligible families having higher incomes.

Skipping of families for deconcentration purposes will be applied uniformly to all families. When a unit becomes available at a lower income development, the unit will be offered to a higher income family. When a unit becomes available at a higher income development, the unit will be offered to a lower income family.

The PHA provides a waiting list preference to victims of domestic violence and those involuntarily displaced. These preferences, and only these preferences, override deconcentration and income mixing policies.

Deconcentration Methodology

The PHA shall admit lower income families to higher income buildings (or developments) and admit higher income families to lower income buildings (or developments) using the following steps:

Step 1: The PHA will annually determine the average income of all families residing in all of its general occupancy (family) developments (including families residing in developments approved for demolition or conversion to tenant-based assistance and families residing in public housing units in mixed-finance developments).

Step 2: The PHA will annually determine the average income of all families residing in each building of each general occupancy development.

Step 3: The PHA will annually characterize each building of each general occupancy development as higher income or lower income based on whether the average income in the building is above or below the overall average.

Step 4: The PHA will determine which families on the waiting list have incomes higher than the PHA-wide average and designate these families "higher income

families,” and which have incomes lower than the PHA-wide average and designate these families “lower income families.”

Step 5: When a unit becomes available in a higher income building, the PHA shall skip families on the waiting list if necessary to reach a lower income family to whom it will offer the unit **except in the case of families who are victims of domestic violence and those involuntarily displaced.**

When a unit becomes available in a lower income building, the PHA shall skip families on the waiting list if necessary to reach a higher income family to whom it will offer the unit **except in the case of families who are victims of domestic violence and those involuntarily displaced.**

If the waiting list does not contain a family in the income category to whom the unit is to be offered, the PHA shall offer the unit to a family in the other income category.

Definition of Building for Purposes of Deconcentration

For purposes of deconcentration, a “building” is one or more contiguous structures containing at least 8 public housing units.

For scattered site and small developments, if a development contains no structures that qualify as a building, the deconcentration requirement is applied to the entire development as if the development were a building.

For mixed-finance developments and units newly added to the PHA’s public housing stock, the deconcentration requirement is:

For the initial lease-up of vacant public housing units, the average income for the public housing units in each building must not exceed the PHA’s average overall income.

After the initial lease-up, the leasing of public housing units is covered by the deconcentration steps listed above.

If the PHA has provided the family that resided in public housing on the site of a mixed-finance or other development the right to return to that development after revitalization, the deconcentration policy does not preclude fulfilling that commitment.

A family has the sole discretion whether to accept an offer of a unit made under the deconcentration policy.

The PHA shall not take any adverse action toward any eligible family for choosing not to accept an offer of a unit.

DRAFT
11-15-04

The PHA shall uniformly limit the number of offers received by applicants, described in this chapter.

Nothing in the deconcentration policy relieves the PHA of the obligation to meet the income targeting requirements

PHA Incentives for Higher Income Families

The PHA will offer certain incentives to higher income families willing to move into lower income projects. The PHA will not take any adverse action against any higher income family declining an offer by the PHA to move into a lower income project.

In addition to maintaining its public housing stock in a manner that is safe, clean, well landscaped and attractive, the PHA will offer the following incentives for higher income families moving into lower income projects:

PHA will allow occupancy standards of one child per bedroom.

PHA will approve a transfer request to another site of the family's preference after two years of occupancy (such transfers will be based on date order of similar requests received).

The PHA will offer the following incentives to:

- families who move from welfare to work and remain employed for at least one year and have no lease violations;
- working families who have resided in the development for at least two years and have no lease violations

PHA will allow occupancy standards of one child per bedroom.

PHA will target homeownership opportunities to higher income families moving into lower income projects

PHA will give first priority in available Section 3 training slots and hiring for employment with the PHA to higher income families moving into lower income projects.

PHA will provide an escrow savings account to higher income families moving into lower income projects in the case of increased earned income.

HOMEOWNERSHIP PLANS & PROGRAM

D. Homeownership Plans and Program

Qualifications for Homeownership Assistance

To qualify for assistance under the homeownership option –Section 8(y), a family must:

- Currently be on the Section 8 Rental Program and have been on the program for at least one year. The HACC realizes that finding and purchasing a home can be a lengthy process. If applicants on the Section 8 waiting list were permitted to participate in the homeownership option this would cause the HACC several significant challenges (such as defining a realistic search term without causing adverse impact on utilization rates and administrative fees) that would not exist if the HACC limits the homeownership option to current Section 8 participants.
- Family must be in good standing. In other words no debt is owed to the PHA or landlord, and family has not violated any of the Obligations of the Family as stated on the Section 8 Rental Voucher.
- If the family is presently in a lease, the family must be released from the lease by the landlord in order to participant in the homeownership program. The family may leave no outstanding debt to the owner.

The one-move per year requirement for the Regular Section 8 Rental Voucher Program is waived, if the family has permission from his or her landlord to break the lease, in order to participant in the homeownership program. However, once family purchases home, this requirement will be set back into place. In other words the family participating in the homeownership program will be allowed one-move per year provided that family meets all requirements for Section 8(y).

- The family must qualify and enroll in the Family Self-Sufficiency Program (FSS) and must successfully complete the FSS program.
- Family must meet the special requirements for homeownership assistance as defined below:

1. **Family must be First -Time Homeowner -**

The assisted family may not include any person who owned a “present ownership interest” in a residence of any family member during three (3) years before the commencement of homeownership assistance for the family. “First-time homeowner” includes a single parent or displaced homemaker who, while married, owned a home with his or her spouse, or resided in a home owned by his or her spouse.

However, Assistance may be provide for:

2. **A family that owns or is acquiring shares in a cooperative.** Section 8(y) authorizes homeownership assistance for a family that “owns or is acquiring shares in a cooperative.” The law allows assistance for a family that already owns cooperative shares before the start of Section 8 homeownership assistance, not just for a family that acquires cooperative shares for the first time with the support of such assistance.

In this respect, the law treats ownership of cooperative membership different from ownership of title to the home. However, because a family must already be on the Section 8 rental program before they are allowed to participate in Section 8(y) and because the Section 8 Administrative Plan only allows cooperatives (special housing types) as a reasonable accommodation for persons with disabilities for the Section 8 Rental program, in order for an Section 8 participant already to have shares in a cooperative, the participant must be a person with disabilities or have in their household a person with disabilities. However, a current Section 8 rental participant who wishes to purchase a cooperative may do so with the homeownership assistance.

A family containing a family member with disabilities who requires homeownership assistance as a reasonable accommodation is eligible for the homeownership option regardless of whether the family is a cooperative member or a first-time homeowner.

3. The family has not defaulted on a mortgage securing debt to purchase a home under the homeownership option.
4. **The family satisfies the minimum income requirements** - The rule established a National Minimum Income requirement, which equals **2,000 hours of annual full-time work at Federal Minimum Wage.** Adult family members who will own the home at the start of the homeownership assistance must have gross annual income that is not less than the minimum income requirement.

Presently minimum wage is \$5.25 per hour
Family must have a minimum annual income of \$10,500.

- Income to be counted towards meeting minimum income requirements must come from sources other than welfare assistance.
The HACC may count welfare assistance towards minimum income requirement for an Elderly or Disabled Family. (In order for welfare assistance to be counted towards meeting minimum income requirement the Head of Household or Spouse must meet the statutory

definition of an Elderly or Disabled Family as defined by HUD and can be found in the Section 8 Administrative Plan.)

The rule clarifies that the requirement to disregard welfare assistance income only applies in determining whether a family has the minimum income to qualify for homeownership assistance. Welfare assistance income is counted for other program purposes such as calculating the amount of the family's total tenant payment (gross family contribution) and in calculating the amount of the monthly homeownership payment for a family.

The minimum income requirement only applies upon initial qualification to purchase a home and not as a continuing requirement. In other words, once the family is receiving homeownership assistance, the family is not required to meet the minimum income. However, should the family desire to purchase another home while receiving homeownership assistance, the family would need to meet the minimum income requirement.

5. **Family must satisfy employment requirements** - Family must demonstrate that one or more adult members of the family who will own the home at commencement of assistance is currently employed on a full-time basis and has been continuously employed during the year before commencement of homeownership assistance. Full-time employment is defined as not less than an average of 30 hours per week and continuously employed during the year prior to the commencement of the assistance.

PHAs have been given the discretion to determine whether (and to what extent) an employment interruption (small breaks in service) is considered permissible in satisfying the employment requirement.

The HACC in considering the local practice of employment has defined "small breaks in service" to be not more than (3) consecutive months or not more than (4 ½) months within a twelve month period provided that family returns to same employer. However, the HACC realizes that a family may leave one job and become employed with another company. This is permissible provided that the break in service is not more than (1) month. In addition, the HACC will consider self-employment as meeting the employment requirements provide that there are no breaks in service for more than (1) month.

- **The employment requirement does not apply to an elderly family or a disabled family.** Furthermore, if a family, other than an elderly family or a disabled family, includes a person with disabilities, the HACC must grant an exemption from the employment requirement if it is determined that an exemption is needed as a reasonable accommodation so that the program is readily accessible to and usable by persons with disabilities. This

determination will be done on a case-by-case basis taking all factors into consideration. However, the law still requires the family meet the minimum income requirement. The requirement to count welfare assistance does not apply in the case of a family that includes a disabled person or elderly person who is not the Head of Household or spouse.

Rental Voucher Assistance to Homeownership Assistance

The procedures set forth in this section will explain how many Vouchers will be set aside for Section 8(y); The selection criteria for Section 8(y); Applicability of the Section 8 tenant-based voucher requirements to the homeownership option and Requirements for continuation of homeownership assistance; Maximum time to locate and purchase home; Recapture Policy; Policy of HAP to Lender; Requirements for continuation of homeownership assistance; Maximum term of homeownership assistance; Automatic termination of Homeownership Assistance; Policy on issuing rental voucher if family fails to purchase home; Procedure for families no longer wishing to participate in the Section 8(y) program; Portability

- Number of Vouchers to be used toward Section 8(y).
The Homeownership Program Section 8(y) is a new program established by the Final Rule dated September 12, 2000 and became effective on October 12, 2000. Due to the newness of this program, the HACC will initially limit 20 of its vouchers towards this program. This number may be increased if the program proves to be successful.
- **Selection criteria for Section 8(y).** The HACC will disseminate information regarding the Homeownership Program to all of its current participants. A Section 8 participant receiving voucher assistance may request the HACC to determine whether the family is eligible for Section 8 (y). The HACC will determine whether family is eligible for Section 8 (y) according to the program requirements set forth in this plan. The Homeownership Program will be on a first come first serve basis. In other words, the first family deemed eligible for the program will be afforded the opportunity to purchase a home with homeownership assistance. Once the 20 slots have been assigned, the HACC will suspend offering Section 8(y) until an opening may occur. Ex. Family in pre-assistance phase of program fails to purchase a home. After which time, the HACC will simultaneously notify all current Section 8 participants, who have been on the program for one year, of the availability of the homeownership program and will offer the slot(s) to the first eligible family who has notified the HACC, in writing, of their interest in the program.
- **Applicability of Section 8 Tenant-Based requirements to Homeownership Option.** Except for the sections listed below, the requirements of Rent and

Housing Assistance payments do not apply to assistance under the Homeownership Option:

1. Maximum subsidy
2. Examination of family income and composition
3. Utility allowance

In addition families participating in the Homeownership Program, in order to continue participation, must adhere to all Obligations of the Family (with the exception of any references to leases and landlords). All applicable rules defined in the Home Inspections section of this policy will be enforced. At the time of family's annual re-examination, the family must demonstrate to the HACC that all real property taxes, assessments, water taxes, etc. are current.

The HACC will perform a briefing session for the Homeownership Program and will explain:

- Where the family may purchase a unit
- How Portability works
- The advantages of moving to an area outside of a high concentration of poor families
- If the family includes a person with disabilities, the HACC will take appropriate steps to ensure effective communication during the briefing.

- **The maximum time allotted to purchase a home and close on the deal will be 180 days.** Families that fail to close on a home within 180 days will lose their option for homeownership. However they may continue receiving their Section 8 Rental assistance.
- **The Recapture of Homeownership Assistance** – The final rule provides for a recapture of a percentage of homeownership assistance provided to the family upon the sale or refinancing of the home. Sales proceeds that are used by the family to purchase a new home with Section 8 Assistance are not subject to recapture. A family may refinance, **only with the HACC's approval**, to take advantage of lower interest rates, or better mortgage terms, without any recapture penalty. Only those proceeds realized upon refinancing that are retained by the family (for example during a “cash-out” of the refinanced debt) are subject to the recapture provision. Upon purchase of the home, a family receiving homeownership assistance must execute documentation as required by HUD, and consistent with State and local law, that secures the HACC's right to recapture the homeownership assistance. The lien securing the recapture of homeownership subsidy may be subordinated to refinanced mortgage. The amount of homeownership assistance is subject to recapture shall automatically be reduced over a 10 year period, beginning one year from purchase date, in annual increments of 10

DRAFT

percent. At the end of the 10-year period, the amount of the homeownership assistance subject to recapture will be zero.

- **The HACC will send the Housing Assistance Payment directly to the lender.** If the assistance payment exceeds the amount due to the lender, the HACC will pay the excess amount directly to the family.
- **Automatic Termination of Homeownership Assistance.** The homeownership assistance will automatically terminate if no housing assistance payment has been made on the behalf of the family for 180 calendar days. However, the HACC may grant relief from this requirement in those cases where automatic termination would result in extreme hardship for the family. The criteria for the hardship exception are defined in Chapter 6 of the Section 8 Administrative Plan.
- **The Maximum term for homeownership assistance.** The maximum term limit on homeownership assistance is **15 years if the initial mortgage incurred to finance purchase a home has a term that is 20 years or longer. In all other cases, the maximum term of homeownership assistance is 10 years.** This term limitation is cumulative. In other words, if a current Section 8 (y) participant decides to purchase another home with homeownership assistance, the family will be given no additional years of homeownership assistance. The expiration date of the homeownership assistance will be 15 years or 10 years, which ever applies, from the date of initial participation of the Homeownership Program. This **maximum term for homeownership assistance does not apply to an elderly family or a disabled family.** In the case of an elderly family, this exception only applies if the family qualifies as an elderly family at the commencement of homeownership assistance. In the case of a disabled family, this exception applies if at any time during receipt of homeownership assistance the family qualifies as a disabled family.
- **Family may purchase one or more subsequent homes with continued Section 8 assistance.** This allowance is in effect provided that family has not defaulted on a mortgage securing debt incurred to purchase the home. HUD and the HACC believe that it is appropriate to permit family mobility in the homeownership program. Families may need to move for a number of reasons such as safer neighborhoods, better schools, changing space needs, or job proximity. However, the HACC may not begin homeownership assistance for occupancy of the new unit as long as any family member owns any title or other interest in the prior home.
- If family purchases a home under the Section 8 homeownership option and later decides that they prefer to live in a rental unit, the family will be issued a rental voucher provided that no mortgage loan default has occurred and the

DRAFT
11-15-04

family has met all obligations under the Section 8 program. The family must sell the home before the HACC may provide rental assistance.

- A family that defaults on a mortgage loan will be terminated from the Homeownership Program and will not be issued a Section 8 Rental Housing Choice Voucher.
- **Portability.** The family may purchase a unit outside of the HACC's jurisdiction, if the receiving PHA is administering a voucher homeownership program and is accepting new homeownership families. Generally, the portability procedures for the Housing Choice Voucher program apply to the homeownership option. All of the receiving PHA's administrative policies are applicable to the homeownership family. The family will be required to attend the briefing and counseling sessions required by the receiving PHA. The receiving PHA, not the HACC, will determine whether the financing for and the physical condition of the unit are acceptable.

Homeownership Counseling

Section 8(y) provides that a family that receives assistance under the homeownership option must participate and satisfactorily complete the pre-assistance homeownership and home counseling program approved by the PHA.

Topics for the HACC required pre-assistance counseling program include:

- How to obtain financing and loan pre-approval
- Advantage and disadvantage of homeownership
- Home maintenance
- Budgeting and money Management
- Credit counseling
- Types of mortgages and terms
- Role/importance of mortgage insurance
- How to select a home
- Advantage of purchasing outside of low-income areas
- Information on Fair Housing, including fair housing lending and local fair housing enforcement agencies
- Information about the Real Estate Settlement Procedures Act, state and Federal truth-in-lending laws, and how to identify and avoid loans with oppressive terms and conditions

The local Urban League office will provide the counseling. This is a HUD-Approved agency for homeownership and home counseling and is a free service.

Financing, Downpayments & Affordability of Purchase

Financing:

DRAFT
11-15-04

The family must secure their own financing provided that all standard underwriting requirements are met. The HACC will prohibit the following types of financing:

- Balloon payments mortgages
- Variable interest rate
- Seller financing (Other than non-profit organizations and financial lending institutions)
- Sellers that have been debarred, suspended, or subject to a limited denial of participation are prohibited to sell their homes to a potential Section 8 participant.

The final rule provides that the contract of sale must contain a seller certification that the seller is not debarred, suspended, or subject to a limited denial of participation under 24 CFR part 24.

The HACC must approve all lenders, terms of financing, terms of any refinancing (including refinancing or financing for improvements or for repairs).

Downpayments:

The HACC will require downpayments of 3% of purchase price with 1% coming from the families' resources. (Families may use money accrued in FSS escrow fund for the downpayment) This is to ensure that families have a personal financial stake in the home, thus helping to minimize mortgage loan defaults. Families may receive as a gift the additional 2%, however, families will not be permitted to borrow the downpayment from any source or person.

Affordability of Purchase:

Most reputable lenders are very conscientious about the income to debt ratio in determining eligibility for home loans and will ensure that the family can afford such loan. As indicated above the lender as well as the terms of financing must be pre-approved by the HACC. Therefore, the HACC finds it unnecessary to determine the family's net income (gross income minus expenses). In addition the HACC finds it unnecessary to state a maximum percentage of how much of the family's income may go towards mortgage payments. Again, this is with the understanding that financial institutions do not desire a default on the mortgage and will not grant a family a loan if the income to debt ratio is not within their ranges.

Allowable Homeownership Expenses

DRAFT
11-15-04

In the Homeownership Option: A family's allowable monthly expenses for the home, as determined by the HACC in accordance with HUD requirements, are as follows:

- Principal and interest on initial mortgage debt and any mortgage insurance premium incurred to finance purchase of home or any refinancing of such debt: **(The family must get prior approval from HACC to refinance home)**
- Real Estate taxes and public assessments on the home
- Home insurance
- Maintenance expenses
- Costs of major repairs and replacements, ex. Furnace; hot water heater; air conditioning; new roof;
- Principal and interest on mortgage debt incurred to finance major repairs or replacements or improvements for the home.
- Allowances for utilities (HACC will use voucher program utility allowance schedule)
- Costs of purchasing a cooperative unit may be included as an expense.
- If a member of the family is a person with disabilities, eligible homeownership expenses may include debt incurred to finance costs needed to make the home accessible for the family member, if the HACC determines that the allowance is needed as a reasonable accommodation.

Escrow funds accrued from participation in the FSS Program may be used towards any renovations or major repairs and replacement.

Home Inspections

As provided by statute, two types of physical inspections are required in the Homeownership Program (in addition to, and separate from, any lender required inspections):

1. **Housing Quality Standards Inspection** – The HQS inspection is to be performed prior to the family entering into a contract of sale. The HQS inspection is the normal initial inspection conducted by the HACC for the tenant-based rental assistance program. This inspection will point out the current physical condition of the unit and any repairs necessary to ensure that the unit is safe and otherwise habitable. The HQS inspection serves to ensure the family does not enter into a contract of sale or otherwise expend family resources for units that are ineligible for Section 8 Assistance. The HQS

DRAFT
11-15-04

inspection does not include an assessment of the adequacy and life span of the major building components, building systems, appliances, and other structural components.

The law only requires that a HQS inspection be performed before any homeownership assistance may be made. However, PHAs have been given the discretion to require any additional HQS inspections. The HACC feels that because the family will be receiving Section 8 assistance, the unit should meet HQS at all times. Therefore, an annual HQS inspection will be required and cooperation by the family is mandatory. The family will be subject to all applicable sections under Chapter 10 (Housing Quality standards and Inspections) of the Section 8 Administrative Plan.

- 2. Independent Professional Home Inspection** – The statute specifically requires that the contract of sale provide for a pre-purchase inspection by an Independent Professional Home Inspector. This inspection is conducted by a private market home inspector (not by PHA staff) that is experienced and qualified to conduct pre-purchase home inspections. The purpose of this inspection is to identify any defects and assess the adequacy and life span of major building components, building systems, appliances and other structural components.

It is the Section 8 family's responsibility to select the home inspector and pay any of the inspector's fees. (The source of funds for family payment of the home inspection is not restricted. It may be a gift, family savings or an inheritance, or other sources.) Although the HACC may not require the family to use a particular inspector, the HACC will require that the independent home inspector be certified by the American Society of Home Inspectors or a similar national organization. In addition, the independent home inspector must be an impartial third-party.

The HACC must then review the home inspector's report and to determine whether repairs are necessary prior to purchase and to assess whether the purchase transaction makes sense in light of the overall condition of the home and the likely costs of repairs and capital expenditures. The HACC will discuss with the family the results of the inspection and determine whether to disapprove the unit for assistance because of any major physical problems and substantial correction costs, or whether it is feasible to have the necessary repairs accomplished prior to sale.

Lease-Purchase Agreements

It is permissible to use Section 8 Homeownership Assistance for a family to purchase a home that the family previously occupied under a "lease-purchase agreement" – generally a lease with option to buy. HUD's philosophy on this

DRAFT
11-15-04

option is that the right to purchase title under a lease-purchase agreement does not constitute “present ownership interest”. Therefore, the family that holds an option to purchase **may exercise that option** (in other words must purchase the property) and receive assistance under the homeownership program. The family will be subject to the homeownership regulatory requirements at the time the family is ready to exercise the homeownership option under the lease-purchase agreement. At that time the HACC will determine whether the family meets homeownership program requirements as indicated in this policy. If family is deemed eligible according to this homeownership policy, the family will arrange for an independent home inspection, attend counseling sessions, and obtain financing. Homeownership assistance will begin when the family purchases the home and after all of the requirements of the homeownership option are met.

Chapter 16

COMMUNITY SERVICE

[24 CFR Part 960 Subpart F and 24 CFR 903.7]

INTRODUCTION

The Quality Housing and Work Responsibility Act of 1998 mandates PHA's to require that adults living in public housing comply with community service requirements.

A. REQUIREMENT

Each adult resident of the HACC shall:

Contribute 8 hours per month of community service (not including political activities) within the community in which that adult resides; or

Participate in an economic self-sufficiency program (defined below) for 8 hours per month; or

Perform 8 hours per month of combined activities (community service and economic self-sufficiency program)

B. EXEMPTIONS

The HACC shall provide an exemption from the community service requirement for any individual who:

- Is 62 years of age or older;
- Is a blind or disabled individual as defined under Section 216[i][1] or 1614 of the Social Security Act, and who is unable to comply with this section, or is the primary caretaker of such individual;
- Is engaged in a work activity as defined in Section 407[d] of the Social Security Act;
- Meets the requirements for being exempted from having to engage in a work activity under the State program funded under part A of the Social Security Act, or under any other welfare program of the State in which the public housing agency is located, including a State-administered welfare-to-work program; or

- Is in a family receiving assistance under a State program funded under part A of the Title IV of the Social Security Act, or under any other welfare program of the State in which the public housing agency is located, including a State-administered welfare-to-work program, and has not been found by the State or other administering entity to be noncompliance with such program.

The HACC will re-verify exemption status annually except in the case of an individual who is 62 years of age or older.

The HACC will permit residents to change exemption status during the year if status changes.

C. DEFINITION OF ECONOMIC SELF-SUFFICIENCY PROGRAM

For purposes of satisfying the community service requirement, participating in an economic self-sufficiency program is defined, in addition to the exemption definitions described above, by HUD as: Any program designed to encourage, assist, train or facilitate economic independence of assisted families or to provide work for such families.

These economic self-sufficiency programs can include, but are not limited to:

- Job Training
- Employment counseling
- Work Placement
- Basic Skills Training
- Education
- English Proficiency
- Workfare, Financial or Household Management
- Apprenticeship
- Or any other program necessary to ready a participant to work (such as substance abuse or mental health treatment).

In addition to the HUD definition above, the HACC definition includes any of the following:

Participating in the Family Self-Sufficiency Program and being current in the steps outlined in the individual Training and Services Plan.

Participation in approved HTVN Satellite Training.

Other activities as approved by the PHA on a case-by-case basis.

The HACC will give residents the greatest choice possible in identifying community service opportunities.

The HACC will consider a broad range of self-sufficiency opportunities.

D. ANNUAL REDETERMINATIONS

Requirement - For each public housing resident subject to the requirement of community service, the HACC shall, 30 days before the expiration of each lease term, review and determine the compliance of the resident with the community service requirement.

Such determination shall be made in accordance with the principles of due process and on a nondiscriminatory basis.

The HACC will verify compliance annually. If qualifying activities are administered by an organization other than the HACC, the HACC will obtain verification of family compliance from such third parties.

Family members will not be permitted to self-certify that they have complied with community service requirements.

E. NONCOMPLIANCE

If the HACC determines that a resident subject to the community service requirement has not complied with the requirement, the HACC shall notify the resident of such noncompliance, and that:

The determination of noncompliance is subject to the administrative grievance procedure under the HACC's Grievance Procedures; and

Unless the resident enters into an agreement to comply with the community service requirement, the resident's lease will not be renewed, and

The HACC may not renew or extend the resident's lease upon expiration of the lease term and shall take such action as is necessary to terminate the tenancy of the household, unless the HACC enters into an agreement, before the expiration of the lease term, with the resident providing for the resident to cure any noncompliance with the community service requirement, by participating in an economic self-sufficiency program for or contributing to community service as many additional hours as the resident needs to comply in the aggregate with such requirement over the 12-month term of the lease.

Ineligibility for Occupancy for Noncompliance

The HACC shall not renew or extend any lease, or provide any new lease, for a dwelling unit for any household that includes an adult member who was subject to the community service requirement and failed to comply with the requirement.

F. HACC RESPONSIBILITY

The HACC will ensure that all community service programs are accessible for persons with disabilities.

The PHA will ensure that:

- The conditions under which the work is to be performed are not hazardous;
- The work is not labor that would be performed by the HACC's employees responsible for essential maintenance and property services; or
- The work is not otherwise unacceptable.

G. HACC IMPLEMENTATION OF COMMUNITY SERVICE REQUIREMENT

The HACC will administer its own community service program, with cooperative relationships with other entities.

The HACC will administer the community service program through contracts and collaborative agreements with volunteer and community agencies.

The HACC will provide to residents a brochure of community service and volunteer opportunities available throughout the community.

The HACC will administer the community service requirement under this subsection through a cooperative working relationship with the Resident Council and /or RAB Board.

The HACC may contract to a number of third parties to administer the community service program. Contractors will be chosen to perform the following functions:

- Case management and monitoring
- Placement in community service positions
- Liaison to volunteer agencies
- Drug and Alcohol counseling
- Community service activities in public housing developments
