**SUBJECT:** Demolition Delay Ordinance (revised)

---

As directed at the October 8, 2007 Committee of the Whole meeting, please find attached a revised demolition delay ordinance. The purpose of this ordinance is to promote historic preservation by avoiding unnecessary demolition of historically significant homes in Urbana. Newly proposed wording is shown as underlined in the attached Ordinance, and newly deleted wording is shown as ~~struck out~~. These changes would:

- Add selected blocks of East Urbana, as identified by Councilmember Roberts, which have not yet undergone historic resource surveys;
- Add Mixed Office-Residential (MOR) as an applicable zoning district; and
- Clarify that demolition delay would apply to buildings (primarily houses and garages) but not to other structures (for example fences, retaining walls, and driveways).

This ordinance would require the City to delay issuance of certain demolition permits for 45 days. The delay period would apply to properties meeting all of the following criteria as determined by the Urbana Building Official:

- Zoned Residential or MOR, Mixed Office Residential, as designated by the City of Urbana's Official Zoning Map; and
- Included on the City's Historic Resource Survey Inventory list or located within the East Urbana Area or South Broadway Area as defined in the Ordinance; and
- Estimated to be 75 years or older, as determined at the time of the application; and
- Outside of Tax Increment Finance (TIF) districts.

The 45-day delay period is intended to allow the property owner time to explore alternatives to demolition. A landmark application could also be submitted for the property during the delay period. At the end of the 45-day delay period, if the property owner chose to continue with the demolition and no landmark application had been submitted, the City would issue the demolition permit.

Because the proposed Ordinance would affect the property rights of specific, known properties, City Legal staff has advised that the City Council hold a public hearing on the Ordinance. City staff has

provided notice for a public hearing to be held immediately prior to the November 5, 2007 City Council meeting. Notice was accomplished by placing a newspaper advertisement and mailing letters to the owners of the 1,497 Urbana properties which could be subject to the proposed ordinance. In response to this public notice, City staff received two written responses (both in favor of the proposed ordinance) and approximately eight phone, e-mail, and walk-in inquiries. Of the eight inquiries, five voiced support or were neutral inquiries about the ordinance, while three people voiced opposition or reservations.

## **Recommendation**

City staff recommends that the City Council hold a public hearing before taking action on the proposed demolition delay ordinance.
