

CITY OF URBANA, ILLINOIS
DEPARTMENT OF PUBLIC WORKS
ADMINISTRATION

MEMORANDUM

TO: Mayor Laurel L. Prussing and Members of City Council
FROM: William R. Gray, Public Works Director
Craig E. Shonkwiler, Assistant City Engineer
DATE: September 4, 2014
RE: Ordinances from Traffic Commission

Attached are ordinances for your approval from action taken by the Urbana Traffic Commission at its August 12, 2014 meeting.

An Ordinance Authorizing the Mayor to Establish a Parking Meter Zone on Certain Streets and Within Off-Street Parking Lots (Clark Street, Lot 10 A North)

The ordinance amending Section 23-231 of the Urbana Local Traffic Code adds parking meter zones in two locations. The first location would include an extension of an existing parking meter zone located on the south side of Clark Street from Coler Avenue to Busey Avenue. The current parking meter zone has four metered spaces. The remaining parking area within the 700 block of West Clark Street is not regulated with meters. The removal of adjacent rental properties as part of St. Patrick's Church parking lot expansion has reduced the need for residential on-street parking. Because there is unregulated parking within the block, the four metered spaces are rarely used. The Traffic Commission recommended that the entire block be included in the parking meter zone by adding eleven meters to provide regulated parking for those wishing to park on the City street.

In addition to the parking meters, the Traffic Commission agreed with City staff's recommendation to increase the parking limit from two hours to ten hours within the 700 block of West Clark Street and the 300 block of North Coler Avenue to accommodate demand for long-term, on-street parking. The recommended change would provide more efficient enforcement and address an increased demand for on-street parking with longer parking limits allowed.

The second parking meter zone requested is the Lot 10 A North parking lot located south of Elm Street between the Federal Courthouse and the Independent Media Center. Spaces in the lot intended for patrons of businesses in Lincoln Square are frequently used by Champaign County employees and County vehicles. It is recommended that meters be added to this lot with two-hour parking limits between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday. To work with some businesses who were concerned that the addition of parking meters would adversely impact their revenues, a validation system is being developed for patrons purchasing goods and services from Lincoln Square businesses. An agreement between Lincoln Square management and the City of Urbana regarding the use of the parking lots around Lincoln Square allows for the installation of metered spaces in Lot 10 A North.

An Ordinance Amending Schedule J of Section 23-172 of the Urbana Local Traffic Code Establishing Curb Loading Zones on Certain Streets (Harvey Street)

The ordinance amending Schedule J of Section 23-172 removes a ten minute loading zone located in the 900 block of North Harvey Street from that schedule. Originally, the loading zone was recommended to allow users of the King Park shelter with a place to load and unload vehicles and

then move the vehicles to legal parking spaces. The Commission determined that the loading zone was not working since the Police Department had been receiving frequent service calls from residents whose driveways were blocked by vehicles using the loading zone as long-term parking spaces.

An Ordinance Amending Schedule J of Section 23-183 of the Urbana Local Traffic Code Prohibiting Parking at All Times on Certain Streets (Harvey Street)

The ordinance amending Schedule J of Section 23-183 prohibits parking at all times on both sides of Harvey Street from 495 feet north of Fairview Avenue to 530 feet north of Fairview Avenue. The Traffic Commission is recommending this parking prohibition to discourage parking at the north end of the 900 block of Harvey Street. Increasingly over the past few years, the residents at the north end of 900 North Harvey Street have had access to their driveways blocked by King Park users leaving their vehicles in the area designated as a loading zone and beyond. This area had already been approved as a tow away zone in 2010. The addition of the parking restrictions allows the Police Department the ability to discourage violations and reduce the number incidents where driveways are blocked in that area.

The Traffic Commission has considered these locations at its meeting on August 12, 2014 and recommends that the ordinances be passed by the City Council.
