Introduction

Urbana City Council resolution number 2014-11-064R committed the city to enter into an intergovernmental agreement with the City of Champaign, Champaign – Urbana Mass Transit District and the University of Illinois to participate in the Multimodal Corridor Enhancement Project (MCORE). This project consists of five distinct street improvement projects (two in Urbana and three in Champaign) aimed at accommodating vehicular, transit, pedestrian and bicycle travel between the cities' downtown districts and the University District. Details of the MCORE project can be found on the project website at www.mcoreproject.com.

Urbana City Council passed resolution number 2015-03-011R (Green Street from Wright Street to Race Street preliminary engineering, \$500,000) and 2015-03-12R (Green Street from Wright Street to Busey Avenue plans, specifications, estimates, right-of-way and easements, \$420,000) at its March 16, 2015 City Council meeting.

Attached is the proposed resolution (Green Street from Wright Street to Busey Avenue construction, construction engineering, material testing) to be considered at the October 23, 2017 Committee of the Whole meeting. City staff is providing construction engineering for Project 1 but supplemental engineering from the project design firms are necessary due to the size of the project. All work is based upon needs identified in the Capital Improvement Plan.

Financial Impact

The proposed work will be funded with State Motor Fuel Tax (SMFT) as found in the FY2017/2018 Budget line item E09-1-0400-0368. The attached resolution appropriates SMFT for the reconstruction/rehabilitation including construction engineering and material testing of Green Street from Wright Street to Busey Avenue (MCORE Project 1).
