**RE: Ordinances from Traffic Commission**

Attached are ordinances for your approval from action taken by the Traffic Commission.

The first ordinance (Schedule H) is for the placement of stop signs at several locations. The first location is in the Fairway Estates and Lincolnwood Fourth subdivision area. These stop signs are required due to the new street construction of Fairway Estates Subdivision and Michigan Avenue Street in the Lincolnwood Subdivision. The new streets and resulting house construction in this area will increase the amount of traffic on the collector street of Kinch Street and on the local street of Greenridge Drive; therefore, these stop signs are needed and warranted under Section 2B-5 of the Manual on Uniform Traffic Control Devices. More specifically this warrant states that a stop sign may be warranted if one or more of the following conditions exist:

1. Intersection of a less important road with a main road where application of the normal right-of-way rule is unduly hazardous.
2. Street entering a through highway or street.
3. Unsignalized intersection in a signalized area.
4. Other intersections where a combination of high speed, restricted view, and serious accident record indicates a need for control by the STOP sign.

The conditions for numbers 1 and 2 above are met for Michigan Avenue at Kinch Street. In addition, Vermont Avenue and Pennsylvania Avenue at Greenridge Drive also meets the conditions for number 1 and 2 above.

The second ordinance (Schedule L) is for the painting of yellow curbs in the vicinity of Bruce Drive with Brighton Drive and Mitchem Drive. Residents have reported difficulty in entering and exiting Bruce Drive at both ends, which are tee intersections with Brighton Drive and Mitchem Drive. The addition of yellow curb as indicated in the ordinance will improve visibility and maneuverability of vehicles at these intersections.

The third ordinance (Schedule J) is for the establishment of a "No Parking This Side of Street" zone on the south side of Florida Avenue from the centerline of Kinch Street to the centerline of Smith Road. This is necessary due to the recent extension of Florida Avenue and its new width (40') does not support parking being allowed on both sides of the street for this arterial designated thoroughfare. The south side was selected because of the existence of a detention basin on that side of the street and parking is not needed.

The Traffic Commission has considered these locations at its Sept. and Oct., 2001 meetings and recommends that the ordinances be approved.
