RE: Ordinances from Traffic Commission

Attached are two ordinances for your approval from action taken by the Traffic Commission.

The first ordinance (Schedule H) is for the placement of stop signs at several locations. These stop signs are required due to the new O'Brien Drive at Cunningham Avenue street construction completed recently. The new O'Brien Drive and relocation of Anthony Drive in this area will increase the amount of traffic on the minor streets that intersect with the collector streets; therefore, these stop signs are needed and warranted under Section 2B-05 of the Manual on Uniform Traffic Control Devices. More specifically this warrant states that a stop sign may be warranted if one or more of the following conditions exist:

1. Intersection of a less important road with a main road where application of the normal right-of-way rule is unduly hazardous.
2. Street entering a through highway or street.
3. Unsignalized intersection in a signalized area.
4. Other intersections where a combination of high speed, restricted view, and serious accident record indicates a need for control by the STOP sign.

The conditions are met for numbers 1 and 2 above are met for all intersections in the ordinance.

The Traffic Commission has considered these locations at its July, 2002 meeting and recommends that the stop signs be installed.

The second ordinance (Schedule J) is for the extension of a no-parking zone previously approved on Sunset Drive east of Lincoln. The existing zone was extended approximately 45' to improve the maneuvering of vehicles near the intersection. One on-street space will be removed from Sunset Drive.

The Traffic Commission has considered these locations at its December, 2002 meeting and recommends that the no parking zone be extended.
