RE: Ordinance from Traffic Commission

Attached is an ordinance for City Council approval from action taken by the Traffic Commission.

The ordinance (Schedule H) is for the placement of stop signs at three locations. These stop signs are required due to the new construction of Saline Court in the North Lincoln Industrial Park Subdivision and the new Smith Road connection between Florida Avenue and Stone Creek Boulevard. The newly constructed streets intersect with the arterial/collector streets; therefore, these stop signs are needed and warranted under Section 2B-05 of the Manual on Uniform Traffic Control Devices. More specifically this warrant states that a stop sign may be warranted if one or more of the following conditions exist:

1. Intersection of a less important road with a main road where application of the normal right-of-way rule is unduly hazardous.
2. Street entering a through highway or street.
3. Unsignalized intersection in a signalized area.
4. Other intersections where a combination of high speed, restricted view, and serious accident record indicates a need for control by the STOP sign.

The conditions are met for numbers 1 and 2 above are met for all intersections in the ordinance.

The Traffic Commission has considered these locations at its August, 2004 meeting and recommends that the stop signs be installed.
