**MEMORANDUM**

**TO:** Bruce K. Walden, Chief Administrative Officer  
**FROM:** William R. Gray, Public Works Director  
Gale L. Jamison, Assistant City Engineer  
**DATE:** September 17, 2004  
**RE:** Vacation of Wright Street Right-of-Way Through Dunbar Court.

**Background**

The Housing Authority of Champaign County (HACC) operates their Dunbar Court Facility on Wright Street north of an eight foot wide vacated east-west alley north of Eads Street. See attached map. As part of the acquisition of the Dunbar Court parcel for use by HACC, the sixty-six foot wide right-of-way for Wright Street was extended northerly 327 feet through the parcel. The north terminus of the right-of-way is at the corporate limits of the City of Champaign and Champaign Park District's Douglas Park. The right-of-way bisects the parcel with approximately 23-feet of the parcel lying west of the right-of-way and east of the corporate limits of the City of Urbana. The Wright Street pavement extends approximately 250-feet north of the south end of the right-of-way within the Dunbar Court parcel. As the result of a 1986 leasing agreement, HACC currently maintains a 13-space, 90-degree parking area on the west side of Wright Street. The existence of an executed lease was not readily determined. HACC proposed and has constructed a 14-space parking extension on the north end of the existing Wright Street Pavement.

**Discussion**

Wright Street does not continue north of Dunbar Court and HACC and their guests are the only users of the street for access to their parking. The continued use of the Wright Street right-of-way by HACC for the existing and proposed parking could occur either through an extension of the lease agreement, if it exists, through a licensing agreement for the use of the right-of-way or by vacation of the right-of-way to the Housing Authority. Since there is one user of this right-of-way, the City would prefer to vacate the street and shed maintenance and liability responsibilities.

The primary access to the Champaign Park District's Douglas Park, located at the north terminus of the right-of-way, is from the City of Champaign's Eureka Street, which extends east from 5<sup>th</sup> Street to terminate in a cul-de-sac a few hundred feet north of Dunbar Court. The City of Champaign and the Champaign Park District, as well as all utilities, were notified of the proposed vacation and none took exception. HACC owns the property on both side of Wright Street and would be the only property owner affected by a vacation of the right-of-way.

A public hearing regarding the proposed vacation was held on July 19, 2004. The required 10-day comment period ended on July 29, 2004. No comments were received.

A utility easement would remain if the street were vacated for the maintenance of sewers and public utilities that exist within the right-of-way.

### **Fiscal Impact**

When Dunbar Court was developed, HACC gave the existing right-of-way to the City at no cost. No new lot will be or can be subdivided by this vacation that could result in a monetary gain to HACC. City policy is to vacate alleys (or streets) adjacent to residential properties at no cost when maintenance and liability issues are shed. It is proposed that the right-of-way be vacated at no cost to HACC.

### **Recommendation**

The City Council is asked to approve the attached ordinance, which vacates the subject street right-of-way.
