Waste containers shall be located on each property where an occupied dwelling or business is located, except adjacent properties owned by the same person, or by multiple persons with private arrangements, may share waste containers so long as both of the following conditions are met:

- (1) The adjacent properties are not separated by a road, alley, right-of-way or physical barrier (e.g. fence); and

- (2) Sufficient waste container capacity and collection frequency, as required under this section, are maintained.

(b) Specifications. Each waste container shall be constructed of durable plastic or metal and have a solid water tight bottom, with covers or lids to adequately prevent water, insects, or animals from entry and to minimize odors, except as exempted under Sec. 11-52(b). Lids on containers shall be kept in general repair by the hauler, if the hauler provides the container, or by the property owner or tenant if they provide the container. "Fifty-five (55) gallon drum" containers shall not be considered an acceptable container. All containers shall be maintained to be sound, with lids closed, and kept in sanitary condition.

(c) Capacity. All waste containers shall be of sufficient size and number to adequately store and hold all accumulations of municipal wastes, except for the occasional disposal of bulky or oversized wastes such as furniture, mattresses, or appliances which cannot be placed into containers, generated between weekly collection periods from all dwellings or businesses. Frequency of collection shall also be sufficient so as to provide adequate waste disposal capacity.

- (1) Single-family dwellings are prohibited from using a container or dumpster having a capacity of larger than one (1) cubic yard for the storage of wastes accumulated between required weekly collection periods.

(d) Location; allowance for curbside collection. No person shall permit municipal waste or container(s) used for the collection of municipal waste or recyclable materials to be placed or remain upon city-owned or controlled right-of-way or a front yard, except for the forty-hour period commencing at 6:00 p.m. on the day preceding and ending at 10:00 a.m. on the day following the day of the week designated in this Code allowing curbside collection for a given location.

(e) Placement following collection. Containers used for curbside collection of municipal waste or recyclable materials shall be returned and placed back by haulers in an orderly manner so as to not obstruct any street, sidewalk or driveway.

(f) A violation of this section is declared to be a public nuisance, Class 1 offense.
