MEMORANDUM

To: Mayor Laurel Prussing and Urbana City Council Members
From: Beth Beaty, Administrative Services Manager
Date: August 24, 2015
Re: Transportation Network Company Services

Introduction:
A transportation network company (TNC) uses computer software to connect passengers with TNC drivers. Uber and Lyft are examples of TNCs. Although the City currently regulates vehicles for hire in Urbana City Code Chapter 26, the current regulations do not anticipate some of the unique characteristics of TNCs. The proposed ordinance, attached as Exhibit A, would amend Chapter 26 to include regulations for TNCs.

In 2014, the State of Illinois passed the Transportation Network Providers Act (Public Act 098-1173) regulating TNCs. In 2015, an amendment was signed into law (Public Act 99-56) stating that a unit of local government may not regulate TNCs, TNC drivers, or TNC services in a manner that is less restrictive than the regulation by the State under this Act. For a complete version of the Act, please refer to Exhibit B (see attached).

Background and Facts:
The cities of Urbana and Champaign jointly license vehicles for hire. In September 2014, staff from Urbana and Champaign met with representatives from Uber. At the time, Uber expressed a sincere desire to operate in our communities and a willingness to comply with any local regulation. After our initial meeting, both cities agreed to continue meeting in order to determine how best to regulate Uber.

Over the next several months, staff from Urbana and Champaign worked together on proposed changes to amend our respective City Codes to jointly license and regulate TNCs. In March 2015, discussions halted between both cities after the Champaign City Council held a Study Session and afterwards decided not to regulate TNCs at the local level. They are satisfied with allowing the State to regulate TNC services.

Uber is operating in our community. In March of this year, the City Attorney received a letter from Uber informing the City that Uber had launched services in Urbana the previous month.
Feedback:
At the Champaign Study Session back in March 2015, vehicle for hire business owners were invited to attend and address Champaign’s City Council in regards to TNC services. Several business owners spoke out against TNCs. Those who addressed Council felt it would be unfair to require vehicle for hire businesses and drivers to pay licensing fees, as well as adhere to local regulations, if TNCs were not required to do the same.

In Urbana, we just completed license renewals for vehicle for hire businesses and drivers. To date, we have licensed 45 businesses and 109 drivers this year. During the time that everyone was coming into the office to relicense, at least half of the business owners and a quarter of the drivers, inquired about when the City would be requiring TNCs and drivers to license. There remarks mirrored the comments made at Champaign’s Study Session.

Options and their Consequences:

Option I – Council decides not to regulate TNC services at the local level.

- Advantages
  - Administrative, support and enforcement staff’s time will be free to work on all other assignments.
  - Urbana and Champaign remain consistent by allowing the State to regulate TNCs.

- Disadvantages
  - The City will have no method to address any issues that may result from an incident with a TNC.
  - Existing regulation for vehicle for hire companies may create an unfair market for all other transportation service providers in the area (e.g. taxicabs and limousines).
  - Public safety may be a concern, since the City will not be involved in background checks for TNC drivers or vehicle inspections on TNC vehicles.
  - There is no designated department or agency in charge of enforcing TNCs.

Option 2 – Council decides to regulate TNC services at the local level by amending Chapter 26, as outlined in Exhibit A.

- Advantages
  - The City will have a method to address any issues that may result from an incident involving a TNC.
  - Vehicles for Hire and TNCs will work on a more level playing field in the local market.
  - The public will have access to select another safe and reliable transportation service here locally.

- Disadvantages
  - Administrative, support and enforcement staff would require additional time to become familiar with new regulations.
  - TNC licensing requirements would take up more staff time to accommodate company and driver licensing requirements.
  - Only Urbana would regulate TNC services in this area.
**Enforcement:**
Enforcement of TNC businesses and drivers will be handled in the same manner as vehicle for hire businesses and drivers. Both the business and driver must license annually each year, submit all applicable documentation, pay all fees associated with the licensing process and provide scheduled inspection, registration and insurance information throughout the licensing year. Failure to do so may result in late fees and/or suspension or revocation of the license.

**Fiscal Impact:**
Staff reviewed the costs associated with licensing TNC businesses and drivers and estimated the cost at about $14,500 annually, including staff time and benefits. The fees would offset the personnel costs involved with licensing related activities. This would allow staff to restore some of the hours that were cut from an administrative position in the Finance Department in FY2016 budget reductions. Without restoring approximately 7.5 hours per week of the 20 that were cut, it would be extremely difficult to manage the additional workload. A budget amendment to accommodate a change in personnel costs would be presented to Council at a later date.

Lastly, the proposed fees for a TNC driver are consistent with the current fees for a vehicle for hire driver. Although the proposed TNC business license fee is set at a much higher amount than the vehicle for hire business license fee, it is in an effort to keep the TNC driver’s license fee at the same cost, as a vehicle for hire driver’s license fee.

**Recommendation:**
Staff recommends approval of the attached ordinance amending Urbana City Code Chapter 26.
WHEREAS, the City of Urbana (“City”) is a home rule unit of local government pursuant to Article VII, Section 6, of the Illinois Constitution, 1970, and may exercise any power and perform any function pertaining to its government and affairs, including the power to regulate for the protection of the public health, safety, and welfare; and

WHEREAS, the City Council strongly supports the area’s existing vehicle for hire businesses and intends in this Ordinance to establish regulations that are fair and appropriate for all transportation providers regulated by the City; and

WHEREAS, the City Council finds that the best interests of the City are served by requiring all persons operating TNCs in the City to provide safe,
clean, reliable, and consistent transportation services to the riding public; and

WHEREAS, the City Council finds that the City may regulate such activities pursuant to the City’s home rule authority and the Transportation Network Providers Act, 625 ILCS 57/1 et seq., which Act took effect on June 1, 2015; and

WHEREAS, Public Act 99-56, adopted by the 99th Illinois General Assembly, amended the Transportation Network Providers Act, inter alia, to prevent a unit of local government from regulating TNCs, TNC drivers, or TNC services in a manner that is less restrictive than the regulation by the State under such Act, effective on July 16, 2015; and

WHEREAS, the City Council heretofore has enacted Urbana City Code Section 14-7 to establish a schedule of fees for the various licenses, permits, fines, and other fees required under the Code; and

Except as this article hereby declares and determines, as authorized by state law, every TNC and operator shall comply with the provisions of the Transportation Network Providers Act, 625 ILCS 57/1 et seq., as amended. Failure of a TNC or operator to comply with such Act will be deemed a violation of this article.

Sec. 26-155. - Sounding horn unnecessarily.
