

**CITY OF URBANA, ILLINOIS
FINANCE DEPARTMENT**

MEMORANDUM

TO: Mayor Marlin and City Council Members

FROM: Elizabeth Hannan, Finance Director

DATE: May 4, 2017

SUBJECT: Prevailing Wage Ordinance

Introduction: This Council Bill would establish prevailing wage rates for City of Urbana public works projects, based on the July 2015 Illinois Department of Labor prevailing wage rates for Champaign County.

Background: The Illinois statutes (820 ILCS 130/1 et seq.) require all public bodies every year during the month of June to establish prevailing wage rates for laborers, mechanics, and other workers under contract for public works projects.

This schedule is provided to all contractors on City of Urbana public works projects and these contractors are required to pay at least this wage to employees utilized in public works projects.

The Illinois Department of Labor normally provides updated prevailing wage schedules on a monthly basis, but has not provided an update since July 2015. Therefore, the City will adopt prevailing wages for Champaign County from July 2015 as the prevailing wage for City projects for next fiscal year.

Recommendation: Adopt this Ordinance establishing the prevailing wage for City of Urbana public works projects.

RESOLUTION NO. 2017-05-033R

Explanations

CHAMPAIGN COUNTY

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

Oil and chip resealing (O&C) means the application of road oils and liquid asphalt to coat an existing road surface, followed by application of aggregate chips or gravel to coated surface, and subsequent rolling of material to seal the surface.
