Continuous feedback and transparency are important to building community trust. The City of Urbana is committed to doing that, and as a result of the public meetings previously held, the City has created additional space and time for the community to have a discussion on the themes that arose out of those earlier discussions. We will use those as a catalyst for discussing steps to improve and answer questions on these important topics:

- Use of Force
- De-Escalation
- Procedural Justice
- Body Worn Cameras
- Police Firearms/Equipment
- Dispatch "Calls for Service"

These "learning sessions" will be led by an experienced, outside consultant and the information will be used to continue to build trust and understanding in the City of Urbana.
