**VI. New Business**

*A. California's Bicycle Treatments – Gary Cziko*

Gary Cziko gave a presentation detailing information regarding California's Bicycle Treatments. You can view the entire presentation at [www.gcziko20090915.notlong.com](http://www.gcziko20090915.notlong.com) One idea to implement in Urbana includes sharrows, or shared lane markings. Jennifer Selby informed the group that the City will be installing sharrows on Philo Road between Windsor Road and Colorado Avenue. Another idea is a bicycle boulevard - sometimes called a bicycle priority street. This is a street where all types of vehicles are allowed, but the roadway is modified as needed to enhance bicycle safety and convenience.

*B. Campus Bike Plan – Morgan Johnston, Transportation Demand Management Coordinator,  
University of Illinois, Facilities & Services*

Morgan presented a draft of the Campus Bike Plan which included: the background; proposed facilities by sections; funding information; design guidelines; and additional considerations. The U of I commissioned a multi-modal transportation study by a consultant and decided that they are going to develop a comprehensive bike plan in-house to install bike lanes and implement bike education. Brandon Bowersox asked Morgan about public input for this plan. She is looking into having public meetings and will announce those times as they happen.
